Preface

This list includes theses accepted by Canadian universities in the academic year 1965/66, together with a few accepted since 1960 but not listed in previous editions.

The list is compiled from information supplied in almost all cases by the libraries of the universities.

The arrangement in broad subject divisions is based on the 17th edition of the Dewey Decimal Classification. In general, each subject includes the subdivisions to be found in the corresponding sections of Dewey. For example, animal anatomy is listed under Zoology, human anatomy under Medicine. The numbers in parentheses accompanying the subjects listed in the table of contents indicate the Dewey classes covered by the headings.

Préface

Cette liste comprend les thèses acceptées par les universités canadiennes pendant l'année universitaire 1965/66, de même que quelques thèses acceptées depuis 1960 mais non inscrites dans les éditions précédentes.

Nous avons préparé cette compilation d'après les renseignements fournis, dans presque tous les cas, par les bibliothèques des universités.

Le classement par sujets, en grandes divisions, se fonde sur la 17e édition de la classification décimale Dewey. En général, chaque sujet comprend les subdivisions qui se trouvent dans les sections correspondantes de Dewey. Ainsi, l'anatomie animale est classée avec la zoologie et l'anatomie humaine avec la médecine. Les numéros entre parenthèses qui accompagnent les sujets mentionnés dans la table des matières, indiquent les classes de Dewey que représentent les rubriques de la liste.
